

Life as a

Doctor

by

Elizabeth  
and  
Charlotte  
Lu

Hi. My name is Jack. I am a doctor and I had lots of patients today. One of my patients was a boy with a broken leg. I first gave him a check-up and used a x-ray to see if he needed a wheelchair. I found out that he didn't need a wheelchair. So, I gave him a cast and crutches.

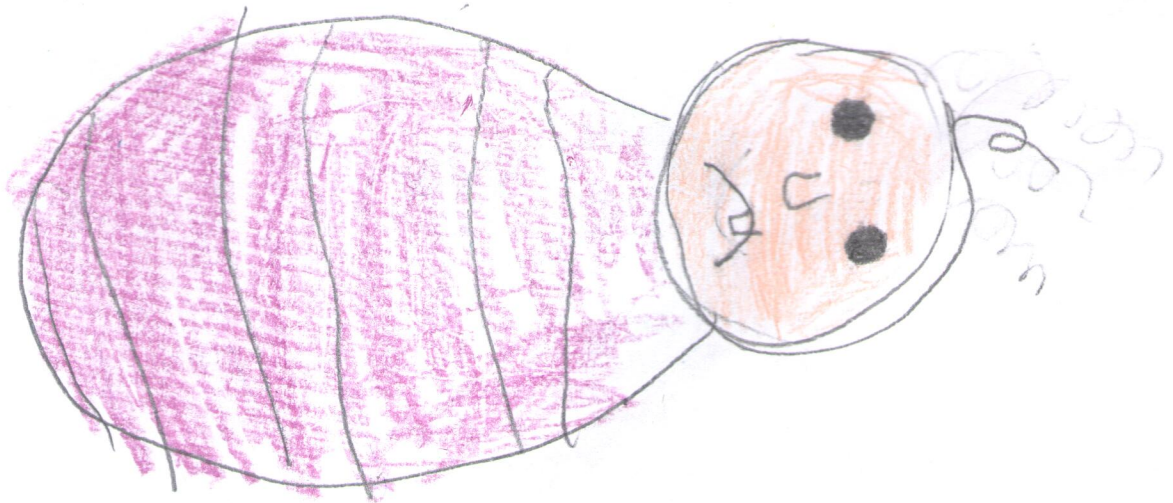

Another patient was a girl with the flu. I gave her some medicine and a shot. Then, I put her to sleep.

Patient 3 had a bloody nose.  
I wiped all the blood away  
and told her to drink lots of  
water.

The next patient was a  
woman who had almost sick  
baby, I told her what to do  
for her baby, called  
Charloffe Jr Lu,

Those where all of my  
patients. Maeb y you'll come  
to me someday!
